

ONLINE LEARNING PLAN INSTRUCTIONS FOR PARENTS & STUDENTS

Parents,

The online platform that we will be using while students are at home will be Google Classroom. The purpose of this platform is to streamline the process of sharing files, teaching videos, enabling live teaching sessions, and sharing information between teachers and students.

The first step will be for students to join a Google classroom. All students K-8th have a Gmail account. Students in grades 5th-8th already have Gmail accounts. Your child's teacher should have sent you their new email if your child is in grades K-4th. As a parent, you will need to change your child's email password, which will give you full access to their account.

The current curriculum that we use gives students online access. Your child's teacher will email you your child's username and passwords in order to access the curriculum. The assignments for each day will be posted on your child's Google Classroom.

Join a class as a student

This article is for students

To use Classroom, you need to sign in on your computer or mobile device and then join classes. Then, you can get work from your teacher and communicate with your classmates. When you join a class on one device, you're enrolled in that class on all devices.

How to join a class

You have 2 ways to join a class:

Join a class with a class code—If your teacher gives you a class code, use this code to add yourself to the class. Your teacher might give you the code while you're in class or email it to you.

Accept an invitation from your teacher—If your teacher sends you an invitation, you'll see Join on the class card on your Classroom homepage.

Forgot or lost the class code? Code won't work?

If you deleted, lost, or forgot the class code before joining a class, ask your teacher to resend the code or set a new one. If the code isn't working, ask your teacher for help.

Note: You only use the class code once to join the class. You are then enrolled in the class, and you don't need to re-use the code again.
